

# Technology should make you soar, not hold you back

**Gryphon Consulting** protects and empowers non-profits with secure collaboration and productivity technology. Our certified experts are passionate about helping business leaders maximize their community impact.

## We make your technology work better with:

A nimble and agile team that can rapidly respond to solve your complex technology needs

Trusted advisors that help you select the right tools to enable growth, reporting, fundraising, and collaboration

Our in-depth experience navigating the non-profit ecosystem, including Microsoft's Tech for Social Impact (TSI)

## Why Gryphon Consulting?

### We help non-profits thrive.

We work alongside numerous non-profits in the DC, Philadelphia, and Baltimore areas. And when we say alongside, we mean it.

From selecting the right technology to implementation, to helping with fundraising and the grant process to navigating the Microsoft technology stack as well as their donation ecosystem, Gryphon Consulting will work hand in hand to help you achieve your goals.

Gryphon listened and built a system more robust than I ever envisioned. They understood our business model, what our objectives were, and what we needed to achieve. We believe we can get to \$600,000 in fundraising now whereas when we started working with Gryphon we were at \$80,000."

*– Dr. Yasmin Delahoussaye  
Chief Program Officer  
Educating Students Together*

We'll help you maximize your investment in:

Tap into our extensive community of **2,000 partners** who can lend best practices, hard-won experience, and advanced technology solutions to solve even the most challenging technology issues.

Recognized for our commitment to black and Hispanic-owned businesses, we go beyond typical business outcomes to create a more equitable world – that’s why we created the Gryphon Give Back Program to reinvest in non-profit development.
